CAIG Statements of RoHS Compliance:

Where a product is flagged as RoHS Compliant or where the RoHS Compliant icon is used, this means that, based on information provided by our suppliers, the product does not contain the substances prohibited (see below) by the European Community Directive (2002/95/EC) on the Restriction of the use of certain Hazardous Substances, commonly known as the RoHS Directive, at levels in excess of the anticipated maximum concentration values.

CAIG's policy is only to designate a product as RoHS compliant when we are confident that the product is fully compliant.

The restrictive products are: Lead, cadmium, mercury, hexavalent chromium, PBB or PBDE flame retardants.
